

DAG BIB

The DAG Bib is a tag of 13.56MHz measuring 15cm x 19cm.

It includes:

- a passive transponder
- a sticker support

The DAG Bib may be:

- disposable
- reusable

Disposable DAG Bib solution:

1. Stick the chip on the back of the bib
2. Slide the DAG on the bag
3. Give the DAGs to the competitors and do not worry about recovery problems after the race

Reusable DAG Bib solution:

1. Stick the chip on the back of the bib
2. Slide the DAG on the bag
3. Programm the DAGs
4. Retrieve bibs
